

Management REPORT

January 19, 1956

No. 157

Mr. G. J. Ticoulat, vice president general paper sales, who will present awards tonight.

AWARDS AT THE SERVICE PIN DINNER tonight will be presented by G. J. Ticoulat who in June of 1955 was appointed to the new office of vice president for general paper sales. Mr. Ticoulat is also sales advisor to Western Waxed Paper division and the Eastern division. Under his supervision are sales for consumer products, industrial paper, distributor markets, and exports. Marketing services also come under his direction.

Service awards tonight go to 145 men and 21 women with service from five to 40 years. J. M. Miller, manager of maintenance and engineering, will be master of ceremonies. The Rev. Walter Cook, Forest Home Friends Church, will pronounce the invocation, and G. H. Gallaway will welcome the guests.

THE 20TH ANNUAL MEETING of the members of the Crown Camas Federal Credit Union is set for tomorrow (Friday) evening, 8 P.M., new Central Research auditorium. A brief business session will include adoption of interest rate for 1955. Several very nice door prizes are being offered.

OUR SYMPATHY is extended to the family of Willard Prince, paper machine room employee, who passed away suddenly at his home at 640 S. E. Polk. He had almost seven years of mill service. His wife, Olive, is an employee of the napkin department. A daughter, Betty (Prince) Pallamounter, also works in the napkin department. A son, Willard, Jr., is a Camas high school student and a summer employee at the mill.

ANNOUNCED TODAY is the transfer and promotion of C. W. Davidson from the West Linn technical department to the position of assistant technical supervisor at Camas. He will take up his duties here on January 23.

THE CALL for blood donors Tuesday resulted in 231 pints being contributed, and a total of 265 persons appearing to offer blood donations. This was one of the best responses in years

When the phone rang Wednesday morning as this page was being prepared, it was safety supervisor Jack Robertson's voice at the other end of the line. "Will you please tell all the folks in your very nicest words," he said, "how much we appreciate the wonderful response and how good we all feel about the success of the bloodmobile visit?" The nicest words we know are these, sincerely spoken to the 265 people who responded to the plea, "Thank you for your unselfish contribution to this vital service."

FOUR LOST-TIME INJURIES have already occurred in 1956. These include three which occurred within the last week. David Sampson, maintenance labor, chipped an ankle bone when he caught his foot while descending portable steps in #2 basement. Bruce Hamblen, yard, wrenched his ankle while unloading truck. Hazel Buhman, napkin, chipped the bone in the knuckle of the right second finger when she struck it against a box.

"I RESOLVE and I hope it sticks, no accidents in '56" is the January safety slogan posted throughout the mill. It was submitted by Nic Bisson, paint shop.

BECAUSE OF THE SERVICE PIN DINNER TONIGHT, the Third and Fourth year classes of paper school met on Wednesday. The third year class heard J. V. Savage, sulfite mill superintendent, discuss screening and bleaching. The fourth year class heard a discussion of mill maintenance by G. A. Atkins, superintendent general mill maintenance. On Tuesday, January 24, the First year class will hear W. C. Jacoby, manager of pulp production, St. Helens division, and M. J. Franklin, pulping schedule co-ordinator, Camas, lecture on "Kraft Pulp Bleaching, Pulp Scheduling and Stock Distribution." On Wednesday, January 25, the Second year students will hear F. J. Mandic, production planning supervisor, discuss production planning, and J. D. Roberts, operating manager of Waterway Terminals Co., Portland, talk on "Shipping and Storage." Third and Fourth year classes will have their third quarter examinations on Thursday, January 26.

RAINFALL for the past week amounted to 2.68 in., bringing the total since January 1 to 10.37 in. Total for the same period last year was 1.79 in. River level yesterday was 15.2 ft. as compared to 5.6 ft. a year ago. Highest temperature for the week was on Tuesday, 56°; lowest was on Sunday, 34°.

SAFETY RECORDS disclose the following comparative figures:

	<u>Slights</u>	<u>Lost-time Injuries</u>	<u>Frequency</u>	<u>Severity</u>
1955 - - - - -	302	25	4.87	277
1954 - - - - -	346	25	4.81	280

Bright spots in the 1955 record are fewer slight injuries and slightly less severity than during the previous year.

FROM SUNDAY'S OREGONIAN: A new plastic surfaced plywood panel that is weather and waterproof and also may lower costs in homes, signs, small boats, and other uses has been announced jointly by the United States Plywood and Crown Zellerbach corporations. The new panel, which U. S. Plywood will market under the name of Duraply, is faced with CZ's Crezon, a resin cellulose plastic sheet fused to the panel surface. Both companies claim it will lower production costs in manufacture of plastic-surfaced plywood and that it increases veneer yield from the log. Key to the process is a new patented machine that automatically fills knotholes, splits, and other surface irregularities in the base panel with a plastic compound, providing a solid foundation for the Crezon overlay.

G. J. Ticoulat, Crown Zellerbach's sales vice president, said his firm's laboratories worked on the process for 10 years. A pilot plant in Seattle has been turning out from 150,000 to 200,000 square feet monthly, and this will be increased to 1,000,000 or more. A huge potential market is envisioned, particularly for siding.

PAYMASTER BOB FULLER calls attention to the numbers in the upper right hand corner of the time cards. The first is the code number for the employee's department. The second is the job or occupation code. Sometimes when people change departments or jobs, there is a lag in bringing the records up-to-date. If you have reason to believe that your code numbers are no longer correct, will you please check with your supervisor

The sale of CZ's interest in Fibre-board Products, Inc. to Pabco Products, Inc. for \$37,800,000 was completed last week. After payment of taxes, this makes about \$30,000,000 available to CZ. The money has been earmarked for further modernization and expansion of the Corporation's facilities.

Paper Sacks Save Government Money

Paper sacks are saving the U. S. government about \$10,000 a year in Glacier National Park reports Superintendent J. W. Emmert. Each automobile entering the national park is given a paper sack with a printed plea to help keep the park clean. Last year 120,000 sacks were given out in Glacier, and the result has been that camp tender and highway maintenance man hours are less used for paper and refuse pickups and more for improvements.
